

PRESS RELEASE

NORDDEUTSCHE HI-FI TAGE 2026

Innuos showcases STREAM3 with PhoenixDAC in Hamburg

Faro, Portugal
January 27, 2026

Innuos returns to **Norddeutsche Hi-Fi Tage 2026 in Hamburg**, placing the spotlight on the **STREAM3 with PhoenixDAC**, a powerful high-end streaming and DAC solution developed in-house for the most demanding audiophiles. Experience this premium configuration in Room 344 at the Hotel Le Méridien, alongside the rest of the new STREAM Series.

STREAM3 with PhoenixDAC: The New Standard in Modular High-Fidelity

At the core of the Innuos showcase is the **STREAM3 Music Streamer and Server**, configured with the in-house developed **PhoenixDAC**, an integrated, dual-mono DAC module that brings pristine Balanced and Unbalanced analogue outputs to the source. Featuring **OCXO and FEMTO clocks**, **dedicated power regulation**, and **independent digital and analogue stages**, the PhoenixDAC elevates the STREAM3 into a true reference-grade all-in-one solution.

Designed for performance and versatility, STREAM3 offers a robust CNC-machined aluminium chassis, ARC6-CX linear power architecture, and extensive modular upgrade paths - all enhanced by Innuos' intuitive **Sense app** for seamless playback and advanced library management.

New Innuos Remote Control: Instant Access, Elevated Usability

Also on show is the new Innuos Remote Control, designed to bring fast, tactile control to everyday listening; from play/pause and volume control, to instantly playing music through numbered presets. The remote, for the STREAM Series, offers a flexible upgrade path while keeping the listening experience effortless.

The System in Room 344

- Innuos STREAM3 music streamer and server with PhoenixDAC
- Innuos PhoenixNET audiophile-grade network switch
- Avantgarde ZERO iTRON Speakers
- In-Akustik power and cables
- Quadraspire SVT Rack

Designed for the Evolving Audiophile

The STREAM Series replaces both the ZEN Mk3 and PULSE series by streamlining both into a new range that introduces modular architecture tailored for both new and experienced audiophiles. Whether used as dedicated digital streamers or upgraded with storage and DAC modules, STREAM Series models are built for long-term flexibility and exceptional sonic fidelity.

STREAM1 offers an elegant entry point to high-performance streaming, while STREAM3 is crafted for reference-level systems - delivering enhanced chassis design, advanced clocking, and audiophile-grade power design.

Meet the Innuos Team

Niall Hunt, Innuos Europe Sales Manager, will be on hand for guided demos and system optimization conversations.

For any media inquiries or interview requests, please contact the Innuos Marketing Team at marketing@innuos.com

About Innuos

Founded in 2009, Innuos is a leading digital audio technology company dedicated to unleashing the magic in music. Engineered and handcrafted in their state-of-the-art facilities in Faro, Portugal, their acclaimed music streamers and servers are purpose-designed to elevate the digital listening experience for the most demanding audiophiles.

Their nearly 50-member team, including a specialized R&D unit, ensures a holistic approach, pairing in-house developed software with meticulously selected, high-grade components and precision-engineered hardware. This dedication to sound quality, reliability, and ease-of-use is why Innuos products consistently redefine the potential of high-fidelity digital audio.

Innuos products have received over 100 press awards and highly praised reviews, and are available in more than 50 countries through over 250 Hi-Fi partner stores worldwide.

Innuos is a Hi-Fi brand committed to innovation, sustainability, and inclusion, and very proud of its social responsibility programs.

Visit Innuos at Norddeutsche Hi-Fi Tage 2026 and unleash the magic in music!
