

PRESS RELEASE

BRISTOL HI-FI SHOW 2026

Innuos debuts complete STREAM Series in the UK at Bristol Hi-Fi Show 2026

Featuring live demos of STREAM1 and STREAM3 with different in-house developed DAC configurations, the Sense App, and new Remote Control

Faro, Portugal
February 10, 2026

Innuos, the award-winning Portuguese Hi-Fi brand known for seamlessly blending precision engineering with intuitive software, is proud to present the UK show debut of its acclaimed STREAM Series of music streamers and servers at the Bristol Hi-Fi Show 2026, taking place February 20–22 at the Delta Hotels by Marriott Bristol City Centre.

Visitors to the show can find Innuos in the **Wallace Suite** and **Stand 7a in the Bristol Suite**. They will be able to experience three distinct STREAM Series configurations with in-house developed DACs. **A/B/C demos to hear how different architectures and DAC modules** affect musical presentation, resolution, and emotion, even within the same product ecosystem.

- **STREAM1 with Performance DAC + LPS1:** Entry-level in size, but audiophile in ambition. Compact yet powerful, the STREAM1 can be fitted with the Performance DAC board supporting up to 32bit/768kHz and native DSD for exceptional sound quality in a space-saving format and can be further improved with the optional LPS1 power supply add-on.

- **STREAM3 with Performance DAC:** The full-size audiophile platform with refined power supply and chassis design. Paired with the same Performance DAC board but with the advantages of the STREAM3's superior internal architecture for a richer, wider sound.

- **STREAM3 with PhoenixDAC:** A reference-grade setup, integrating a dual-mono DAC, OCXO and Femto clocks, RCA/XLR outputs, and an independent analogue regulation stage for those seeking a no-compromise, all-in-one digital source.

Also on demonstration is the in-house developed **Sense App**, providing a seamless and intuitive way to control and manage the music library. For the first time in the UK, Innuos will also present the **new STREAM Remote Control**, exclusive to STREAM1 and STREAM3. This remote offers not just immediate and tactile control, but also **instant access to favourite music** via numbered presets pre-configured through the Sense App.

Two immersive experiences:

Wallace Suite (Lower Ground Floor):
Innuos will run A/B/C demos of all three STREAM Series configurations. Whether the visitor is stepping into digital audio for the first time or refining a reference system, this is a hands-on experience not to be missed. The demo system features:

- Innuos STREAM1 with PerformanceDAC
- Innuos LPS1 Linear Power Supply
- Innuos STREAM3 with PerformanceDAC
- Innuos STREAM3 with PhoenixDAC
- Innuos PhoenixNET Audiophile Network Switch
- Chord Electronics Ultima Integrated Amplifier
- ATC SCM100 PSL Classic Speakers
- AudioQuest Cables and Power Distribution
- Lateral Cadenz Vr Audio Rack

Stand 7a at Bristol Suite (Ground Floor):
Explore the broader Innuos product portfolio, including the ZEN Next-Gen and ZENith Next-Gen music servers and streamers, and get hands-on with the Sense App. The Innuos team will be on-site throughout the show to answer questions, demonstrate products, and discuss music listening needs.

Meet and greet:
- Stephen Healy, Product Specialist
- Niall Hunt, Europe Sales Manager
- Daniel Collier, Customer Support Engineer
- Stephen Hitch, owner of Sonority Design

Beyond their dedicated suite and stand, Innuos products will also be present in various partner rooms throughout the Bristol Hi-Fi Show. Visit REL Acoustics (Bay 3 and Empire 2 Suite), AudioQuest (Empire 1 Suite), CAD/Wilson Benesch (Stand Conservatory 1), Chord Company (Stand Foyer 1a, 1b, 1c and the Old Vic Suite), Chord Electronics (Stand Bristol 11,12 and SS Great Britain 1 Suite), DALI (room 118) to experience Innuos' excellence in diverse listening environments.

About Innuos

Founded in 2009, Innuos is a leading digital audio technology company dedicated to unleashing the magic in music. Engineered and handcrafted in their state-of-the-art facilities in Faro, Portugal, their acclaimed music streamers and servers are purpose-designed to elevate the digital listening experience for the most demanding audiophiles.

Their nearly 50-member team, including a specialized R&D unit, ensures a holistic approach, pairing in-house developed software with meticulously selected, high-grade components and precision-engineered hardware. This dedication to sound quality, reliability, and ease-of-use is why Innuos products consistently redefine the potential of high-fidelity digital audio.

Innuos products have received over 100 press awards and highly praised reviews, and are available in more than 50 countries through over 250 Hi-Fi partner stores worldwide.

Innuos is a Hi-Fi brand committed to innovation, sustainability, and inclusion, and very proud of its social responsibility programs.
