Innuos unveils complete digital audio solutions inspired by the flagship NAZARÉ Series at HIGH END Vienna 2026

New Next-Gen NET, NET3, NET1 and Next-Gen FLOW apply a trickle-down approach to the design philosophy solidified with the flagship NAZARÉ Series

Faro, Portugal
June 3, 2026

Innuos will unveil four new products at HIGH END Vienna 2026: **Next-Gen NET, NET3, NET1 and Next-Gen FLOW** for the ZEN Next-Gen and STREAM Series. These will be presented at **Level –2 Room –2.62** of the Austria Center Vienna from 4-7 June.

An important new chapter for Innuos as the new launches takes their lineup even further with a dedicated stack solution at every level. Trickling-down from the reference NAZARÉ technology and design philosophy, ZEN Next-Gen and STREAM series are now complete digital solutions, available for anyone ready to take their digital source further wherever they are on their journey.

Innuos is also launching two new NazaréFLOW modules during the show:

- NazaréFLOW Optilink Module (EMM Labs)
Interface module for direct Optilink connection to EMM Labs DACs

- NazaréFLOW I2S
Interface module for HDMI I2S based DACs such as Soulution

A true Audiophile Network Switch product category is born

Three new members are added to the powerful NazaréNET:

Next-Gen NET

A high-end network switch designed to perfectly complement the ZEN and ZENith Next-Gen as well as an exceptional option for STATEMENT owners. Benefiting from a power supply derived from the award-winning ZENith Next-Gen and featuring a scale-down WaveNET version from the impressive NazaréNET, opens the door to fibre connectivity and true refuge from noise.

Available in Q4
RRP 10.900 EUR | 10.300 GBP | 15.200 USD | 18.500 CAD

NET3

At a superior level of performance of the now discontinued PhoenixNET, the NET3 brings the chassis and power supply benefits of the STREAM3 into a matching full-sized device. Featuring a further trickled down version of the WaveNET board, introduces fibre connectivity, firmware for ultra-low-noise operation after boot as well has benefitting from a large toroidal transformer, reducing the impedance of the power supply and increasing your joy in music.

Available in Q3
RRP 5.500 EUR | 5.200 GBP | 7.600 USD | 9.300 CAD

NET1

Trickled-down from the award-winning PhoenixNET, NET1 is a new entry point into the Innuos audiophile network switch family. A compact companion to the STREAM1, it is also upgradeable through the LPS1 linear power supply, which was designed from its inception to power both STREAM1 and LPS1.

Available in Q3
RRP separately 1.500 EUR | 1.400 GBP | 2.100 USD | 2.600 CAD
RRP bundled 1.200 EUR | 1.120 GBP | 1.680 USD | 2.080 CAD

A new benchmark in digital audio reclocking

A new voice is added to the NazaréFLOW family:

Next-Gen FLOW

A dedicated USB master reclocker output stage, trickled down from the concept of the groundbreaking NazaréFLOW with a range of output modules, including DAC option - exclusively designed for the Next-Gen FLOW. It is nourished by a power supply inherited from the award-winning ZENith Next-Gen. A high-end component conceived to perfectly take the ZEN and ZENith Next-Gen further, while also standing as an exceptional companion for STATEMENT owners.

Available in Q4
RRP 10.900 EUR | 10.300 GBP | 15.200 USD | 18.500 CAD
Next-Gen FLOW modules RRP starting at 3.500 EUR | 3.300 GBP | 4.900 USD | 5.850 CAD

"HIGH END has always been an important meeting point for the global Hi-Fi community, and we are delighted to be part of its first edition in Vienna," says Amelia Santos, Innuos Co-Founder and CEO. "This year marks an important expansion of our collection, with new products for both the ZEN Next-Gen Series and STREAM Series. Together with the flagship NAZARÉ Series, they demonstrate how every music lover can build a digital audio system designed to reveal more of the emotion, realism and magic in music."

The full NAZARÉ Stack in Room -2.62

The Innuos listening room will feature the complete flagship NAZARÉ Stack, comprising the NAZARÉ Music Streamer and Server, NazaréNET Audiophile Network Switch and NazaréFLOW Digital Audio Reclocker. Live A/B demonstrations will allow visitors to experience the contribution of each Innuos component within the flagship system.

The system in Level -2 Room -2.62 will feature:

- NAZARÉ music streamer and server
- NazaréNET Audiophile Network Switch – router side (Stage 1)
- NazaréNET Audiophile Network Switch – music | streamer side (Stage 2)
- NazaréFLOW Digital Audio Reclocker with new dedicated EMM Labs Optilink module (other modules will be available for display during the show, including the new NazaréFLOW I2S module)

- Marten Coltrane Quintet speakers
- EMM Labs DA2i DAC
- EMM Labs PREi pre-amplifier
- EMM Labs MTRX2 v2 monoblock power amplifiers
- Transparent power and cables
- GC3.1 CAD Grounding
- Artesanía Rack
- Artnovion Acoustic Panels

Innuos in 15 partner rooms across the show

Beyond its own room, Innuos products will be featured in 15 partner rooms throughout the show. Seven will feature NAZARÉ Series products: Zellaton, Soulution, TAD, Marten, Bowers & Wilkins, EMM Labs Inc and Peak Consult. Other series are present in the rooms of Avantgarde Acoustics, B.Audio, Bowers & Wilkins, Diptyque Audio, Revival Audio, T+A, Viva Audio and Wilson Benesch.

Innuos Sense App

All featured Innuos Music Streamers and Servers are supported by the Innuos Sense App - an in-house developed interface bringing together local libraries, streaming services, Internet radio, podcasts, playlist management, CD ripping and system control in one seamless experience.

Expanded Innuos team

The Innuos team will be available throughout the event to meet visitors, including Nuno Vitorino (Co-Founder and R&D Director), Amelia Santos (Co-Founder and CEO), Stephen Healy (Product Specialist), Thomas Graham (Americas Sales Manager), Niall Hunt (Europe Sales Manager), Yaohan Yang (APAC Sales Manager), Daniel Collier (Customer Support Engineer) and Isa Pires (Office Manager).
